

# Arashi Walker

San Francisco, CA / 503-490-5479 / [arashiwalker@gmail.com](mailto:arashiwalker@gmail.com) / [arashiwalker.com](http://arashiwalker.com)

## EDUCATION

UC Berkeley Extension, 2019. Coding Boot Camp.

Full stack web development and coding curriculum.

## EXPERIENCE

Software Developer - Humaucracy Health. Remote 9/2019 - current.

Developing the Huamucracy Health healthcare portal. Features include offline access, in app payments, push notifications, user login authentication, and a reactive responsive interface.

Suite Server - Levy Restaurants. Portland, OR 9/2011 - 6/2017.

Providing general customer service within the dining establishment as well as escalating and resolving any issues necessary to ensure guest satisfaction.

PROJECTS - <https://github.com/arashiwalker>

Yelpclone - <https://arashiwalker.github.io/busynotbusy/index.html>

Yelpclone using google APIs converts addresses into geographic coordinates (geocoding), which you can use to place markers or position the map. Additional features include establishment type. Firebase is used to track page clicks and views throughout the application.

VR Code Playground - <https://codeplayground1311.herokuapp.com>

A VR room developed with A-Frame, MySQL, Node.js, EJS. VR Code Playground allows the user to dive into an enhanced multimedia virtual reality. In the VR Code Playground you will be able to write code, hang out with friends, communicate and interact with users within the playground and much more.

## TECHNICAL SKILLS

- Javascript / JQuery	- Python / Flask	- Node.js / Express
- React.js / React Native	- MongoDB	- Firebase / Google API
- HTML5 / CSS	- MySQL	- JSON / AJAX
